

**Prof. Ramon Wyss**  
**Vice-President for International Projects, Kungliga Tekniska**  
**Högskolan**  
**Secretary General, CLUSTER network**

Ramon Wyss is a professor in theoretical nuclear physics at the Royal Institute of Technology (KTH) in Stockholm, Sweden.

He was the vice president of KTH in charge of international education at the KTH from 2002 to 2007 after which he became advisor to the KTH-President in 2008. He has been from 2004-2008 a member of the management board of CESAER (a network of 60 universities in science and technology) and since 2006 the Secretary General for CLUSTER (a network of 12 European universities in science and technology).

Ramon Wyss has been the KTH project leader to develop the Swedish University of Science and Technology in Pakistan, and has also developed joint educational and research programmes with China and India. He served as vice president for international affairs at the Jönköping International business school 2008-2009 and has been appointed since June 2009 vice president at KTH for international affairs.

Ramon Wyss is the interim manager of the Swedish node of the EIT KIC Inno Energy. He serves also as an honorary guest professor at Peking University. He has published more than 200 articles in refereed journals within nuclear physics with a H-factor of over 40.
