

**Yves Fanjas**  
**Research & Innovation deputy Vice President**  
**AREVA**

Yves Fanjas, is a graduate of the Ecole des Arts et Métiers engineering school in France; he holds a master's degree from Cornell University (USA) and is graduate from the Institut de Contrôle de Gestion.

He began his career in 1976 at the Pont-à-Mousson research center. In 1978, he joined CERCA where he was in charge of developing low-enriched fuel for nuclear research reactors. He took over as the head of R&D at FBFC in 1993 before becoming Technical and R&D Director of the FRAMATOME Fuel Branch in 1998. In 2001, he was appointed Quality and Environment Director for the AREVA Fuel Sector, before being nominated VP R&D for the Fuel Sector in 2003. Since the beginning of 2007, he has been deputy vice-president Research & Innovation of the AREVA Group, specially in charge of innovation, expertise and knowledge management. .
