# EIT Food

EIT Food is a European Knowledge and Innovation Community (KIC), part of the EIT, which was set up to transform our food ecosystem. By connecting consumers with businesses, start-ups, researchers and students from around Europe, EIT Food supports innovative and economically sustainable initiatives which improve our health, our access to quality food, and our environment.

**From European innovation  
leader to global  
innovation leader**

# Our proposed four objectives

1. To foster, grow and strengthen **sustainable innovation ecosystems** across Europe by **connecting people, disciplines, sectors, organisations and resources**
2. To bring **new solutions to global societal challenges to the market** by integrating business, education and research
3. To nurture **entrepreneurial talent** and **enhance and promote skills and competences** for a strong, inclusive and open **entrepreneurship and innovation culture**
4. To share **innovative practice** and learning widely and contribute to **innovation policy design in Europe**

# Expected EIT Future Impact

**Socio economic  
impact**

**Impact on  
global societal  
challenges**

**Systemic  
impact**
