## Ex-ante publicity notice for negotiated procurement procedures

**Subject: No 21/2016/NP/EITPROC for the acquisition of mobile telephony services to the European Institute of Innovation and Technology (EIT)**

### **1. Background information and short description of the contract:**

EIT has currently a Framework Service Contract with Magyar Telekom Zrt. for the provision of mobile telephony services (Contract 31/2012/EITPROC) based on the open call for tender 01/2012/EITPROC.

The contract will expire on 20/12/2016 and the objective of this procurement procedure is to contract the mobile phone services by setting up a low value negotiated procedure since it has been estimated that the total value of the contract over the next 4 years will be below 60,000 EUR.

### **2. Description of the procedure:**

This ex-ante publicity is the first stage of a negotiated procurement procedure below €60,000.00 with a minimum of 3 candidates, through which the EIT may award the above-mentioned contract. The purpose for this notice is to support the EIT in the selection of the list of candidates to be invited to submit an offer for the contract.

All economic operators interested in providing the above-mentioned services should send a declaration of interest before **13/10/2016** by email to [eit-procurement@eit.europa.eu](mailto:eit-procurement@eit.europa.eu) with the same subject reference as indicated above.

In their declaration of interest, interested economic operators should demonstrate their ability to provide the relevant services. This information will be assessed by EIT in order to select suitable candidates. All interested economic operators will be informed of the decision of the EIT.

The Invitation to Tender and related documents will be provided by e-mail only to the selected candidates.

EIT reserves the right not to launch the negotiated procedure. If that were the case, all interested economic operators would be informed of such decision.
